THIRTEEN CENTS FOR STOCK ON HOOF

STOCK BUYERS ARE PICKING UP YOUNG CATTLE IN CENTRAL NEVADA.

Cattle buyers have invaded the Reese river country, which is something unusual for this season of the year, and they are more insistent than ever on getting bunches of 2-year-olds for fattening for the Panama-Pacific exposition year. These men are offering 13 cents on the hoof, but such stockmen as Bell, Keogh and Welch know too well the value of their herds to let go at this time, when they are plentifully supplied with alfalfa. They think they can hold on to their stock a little while longer and get the benefit of topping off prices by sending their stock to Mason valley or Fallon for the winter.

Two buyers of this class arrived in Tonopah this morning and took autos for Stone Cabin, with the intention of going through to Duckwater and Ely.

ATTACHMENT ON INDIANA CLAIM NEAR PIONEER

COLORADO CAPITALIST SEEKS TO CLEAR TITLE TO MINING GROUP.

Sheriff Ed Mailey has returned from a trip to Pioneer, where he served a number of writs, and also attached the property of the Indiana Mining company on complaint of William Milliken of Denver, chief stockholder of the company, who has been taking care of the current expenses of the property.

The suit was sent here for filing by a firm of Denver attorneys and the object is to clear the title. Milliken is one of the richest men in Colorado, who became interested in the Pioneer district during the time when the boom was on in that camp when D. R. C. Brown of Aspen, Colo., and other Colorado capitalists invested in a group of claims that subsequently became involved in litigation.

PLATINUM WORTH MORE THAN MILLION PER TON

The production of pig iron in 1912 was 33,802,585 tons of 2000 pounds each; that of platinum was 1.3 tons. The value of the iron per ton was \$12.44, as against \$1,328,351 per ton for the platinum.

For the sake of convenient comparison and because in commercial practice the various ores and metals are measured by a variety of units, such as the long, short and metric ton, flask, avoirdupois pound and troy ounce, the United States geological survey has issued a short summary of the "Production of Metals and Metallic Ores in 1911 and 1912," stated in terms of the short ton of 2000 pounds, considerable of which, however, is derived from imported ores, bullion, etc. A comparison of the production of some of the better known metals may be of interest.

Production of the more valuable metals in the United States in 1912, in short tons:	
Quantity.	Value.
Platinum	1.304 \$1,328,351
Gold	188,108 113,415,510
Silver	4,471.4 80,187,317
Aluminum	32,803 15,089,380
Quicksilver	939.9 1,057,180

WOMEN VOTERS ARE BUSY.

(By Associated Press.) CHICAGO, Nov. 4.—Women voters are active today, with "wet" and "dry" elections in twenty-four Illinois cities.

If it's of exceptional value at the price, it's sure to be advertised in the Bonanza, else the merchant would be hopelessly unprogressive.

Butler Theater.

At the Butler Theater this evening the following interesting program of pictures will be shown: "The Rancher's Calling," a Bell western drama; "The Desperate Condition of Mr. Boggs," an Edison comedy, which is a screen from start to finish, and a two-reel Vitagraph, "Under the Deceiver." It took a long time for this man's conscience to catch up with him, but it did when he went to criticize a new play and recognized the story of his own treatment of a trusting country girl. He had won her and cast her off when his love died. The famous playwright of the day put it all in his play and the critic's remorse made him sign his own death warrant—Ady.

A Free Chi-Namel Demonstration

You can ask the Demonstrator to show you any Chi-Namel product you may be interested in, actually applied. For instance—White Enamel, Porch Furniture Enamel, Gold and Aluminum Paint, Varnish Remover (the kind that softens old varnish so it can be washed off with a common scrub brush and clear water), Floor Wax, Furniture Polish, Mission Stains, Colored Varnishes for staining and varnishing with one application.

She will not merely show you the package containing these materials, but show it IN THE BRUSH, and applied before your eyes—in fact, you can take the brush and apply it yourself.

You can see the actual colors—see how easy it is to apply—how all brush marks disappear before it hardens. This will be a demonstration worth while for any one who is responsible for the care and good appearance of the interior woodwork and furniture of a home.

By asking for a demonstration of any particular Chi-Namel product you will not place yourself under obligation to buy; this demonstration is to acquaint the public with the use and economy of Chi-Namel in the home.
